

## Intensive Interaction - Top Tips

- Get down onto the child's level.

- Imitate their movements, facial expressions and vocalisations.

- Stop and wait to see if they will initiate the game again.

- Play anticipatory games like tickling, peek-a-boo, and ready steady ... GO!

- Follow the child's lead - when they have had enough stop the session. Let them control the length and intensity of the interaction.

- Celebrate and extend their communication.

- Have fun!

- Think about ways to write what you have done - what worked well and what did not.
- Try to do this for a short time every day.
