

Q5 UPDATE – MARCH 2021.

Rosa Parks class.

In Rosa Parks class, pupils have been taking part in all sorts of activities to support their curriculum learning in English, maths and science. Pupils are developing their personal-social skills with lessons such as SoSAFE and weekly Social Club. Take a look at some of our photos below so you can see what we have been up to.

Rosa Parks pupils have been learning about multiplication and division in maths. The girls are learning to understand the relationship between the two operations and are practicing how to share equally between groups.

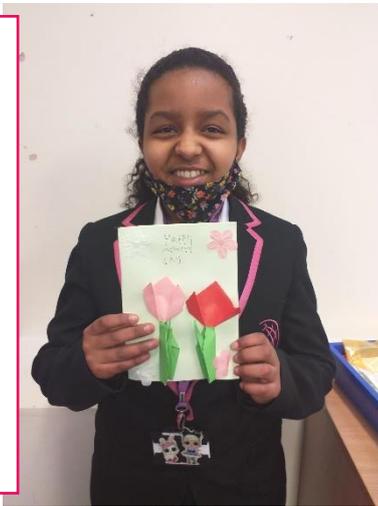

Here we are taking part in Zoom Yoga with Aga. We are developing our skills in movement and relaxation.

We are planting seeds and beans in pairs, conducting short investigations into the growth and survival of plants in science.

We haven't forgotten our special parents/carers. Here are our origami cards and handmade gifts for Mother's Day.

Florence Nightingale class.

Florence Nightingale pupils continue to work hard and are taking part in a number of curriculum and Preparation For Adulthood (PFA) lessons to support development at school and beyond. Here are some of our favourite pictures.

Marielynn celebrated her 16th birthday recently and we made her feel very special with a beautiful cake and class party! We love a good party and gather as a group to celebrate wherever we can! We are looking forward to celebrating Easter in class soon.

We are really enjoying our Monday morning fitness sessions. Here we are warming up!

Fencing is one of the very specialist activities that we enjoy. Miss Aleks teaches us Fencing and we practise in class.

Q5 Extravaganza!

On Friday mornings everyone participates in Q5 Extravaganza! Here we are in our teams working together to complete various tasks, such as quizzes and drawing challenges. This new activity is so much fun!
