

## Q6 – Post 19 to 25 Queensmill College Update March 2021

---

At Q6 we have made some adaptations during the pandemic. We have continued with our learning and this has been restricted to being onsite.

We have been doing lots of activities and exercise both inside of our building and in the garden. We have some really fun activities to do as you can see.

---

We have adapted daily routines and are using Covid measures such as wearing masks and using hand gel for our hands regularly. When we are able to go out into the community again we are ready!
