Covid – 19

Re: Suspected Case

Dear Parents and Carers,

I am writing to let you know of a suspected case of Covid-19 with one of our students which we have just today been made aware of. In discussion with the Health Protection Team at Hammersmith and Fulham, I am writing to let you know that we may have to close the Secondary phase bubble if this student's test result is positive.

I am very much aware that this is extremely short notice and will cause uncertainty but this letter is to alert you to the fact that we may have to close the Secondary phase for a period of two weeks isolation for Secondary phase once we receive confirmation, if the result is negative, we will also update.

At present, please assume that there will be no change for this Monday coming but of course, this may have to change based on the test result.

If you have any questions, please get in touch with a member of the Senior Management team.

Sincerely,

Freddie Adu, Headteacher
